

How Free & Reduced Meal Applications Impact the Classroom

\$375,000

is the amount of funding Minnewaska Area School received last year to support students in the classroom because of the Free & Reduced applications filled out in our district.

There are many ways the classrooms and students are positively impacted by you filling out a Free & Reduced Lunch Application. To apply, go to lunchapplication.com. All information collected is kept confidential.

How is this money used?

▶ Title 1 Funding

Title 1 pays for extra educational services to help at risk and struggling students achieve and succeed in school.

▶ Smaller Class Sizes

Compensatory revenue is used to meet the educational needs of the students. We use this funding to hire more teachers to reduce class sizes.

Benefits to the Family

▶ Activities

Families with meal benefits could also be eligible for athletic and extracurricular activity benefits.

▶ Emergency Broad Band Benefit Program

Families may be eligible for reduced pricing on internet services and computer or tablet purchases.

Be ready for any funding changes.
